

How to clean your ear mould

1. Pull the ear mould off the hearing aid

2. Wash it in warm soapy water.
Use a brush to clean the end of the ear mould.

3. Dry the ear mould on a towel
To dry the tube, blow through the tube or use a puffer

4. Push the ear mould back on to the hearing aid

5. Make sure the ear mould and the hearing aid are facing the same way
